Mockup.pdf

The diagram illustrates the process of creating a website from a template. It shows three stages:

- Stage 1:** A screenshot of the "START BOOTSTRAP" Freelancer theme. The page features a teal header with a profile picture of a person in a hard hat, the text "START BOOTSTRAP", and a "PORTFOLIO" section with six small icons. Below the header is a "ABOUT" section with text and a "Download Theme" button. At the bottom is a "CONTACT ME" form and a footer with location information and social media links.
- Stage 2:** A screenshot of the same theme after customization. The "ABOUT" section has been removed, and the "CONTACT ME" form has been modified. A large question mark is placed over the header area, and a large arrow points from Stage 1 to Stage 2.
- Stage 3:** A screenshot of a browser's developer tools (Elements tab) showing the HTML code for the portfolio section. The code includes sections for "About", "Success", "Contact", and "Footer", along with "Portfolio Modals" and Bootstrap core JavaScript. A question mark is placed over the code.

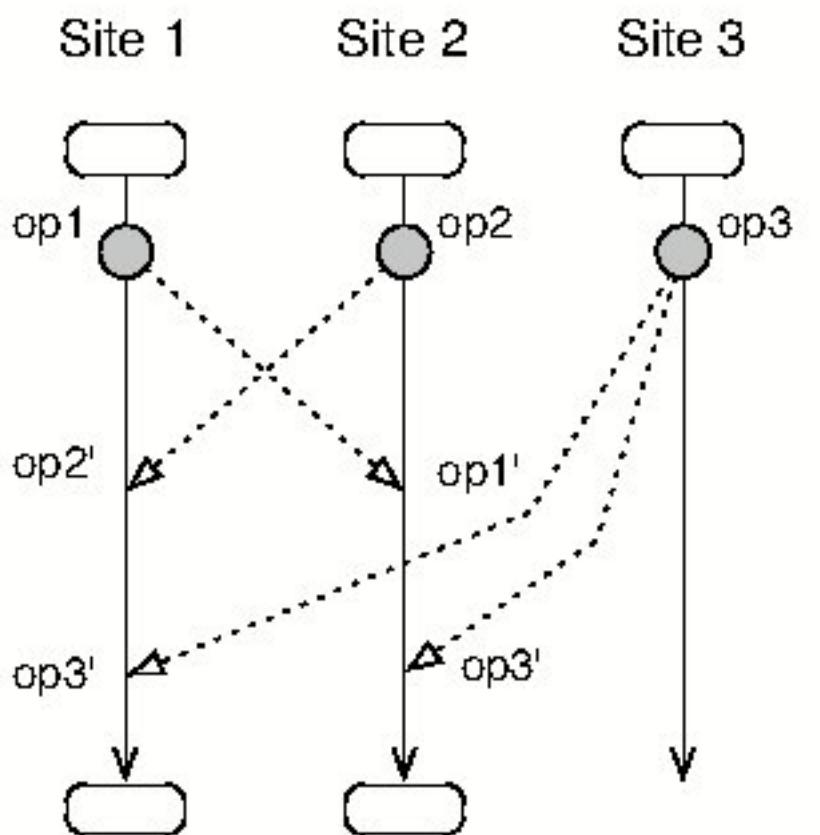

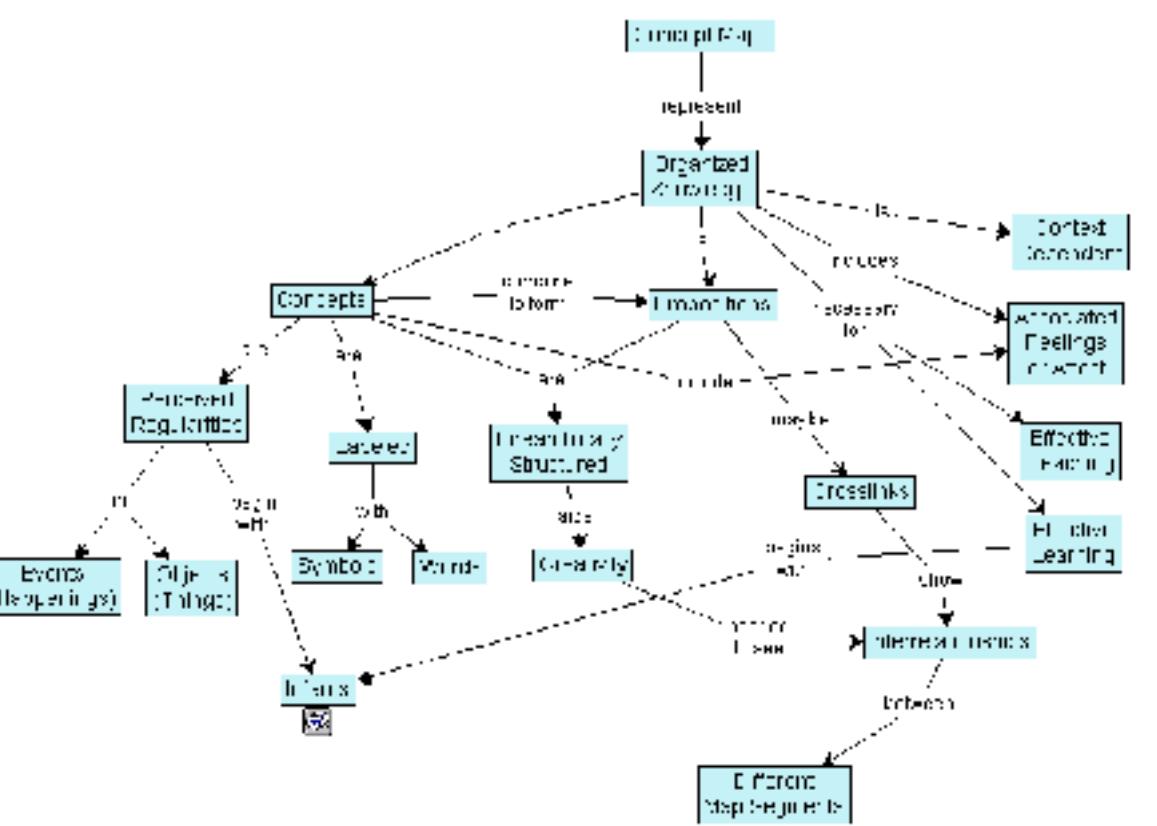

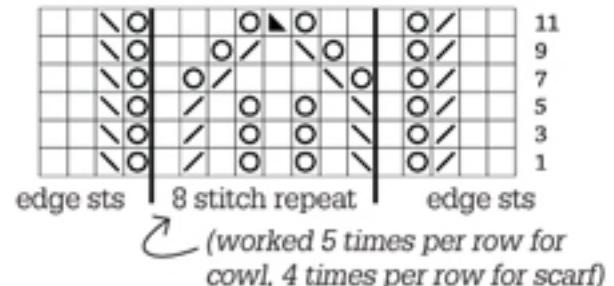

DIAGRAMS

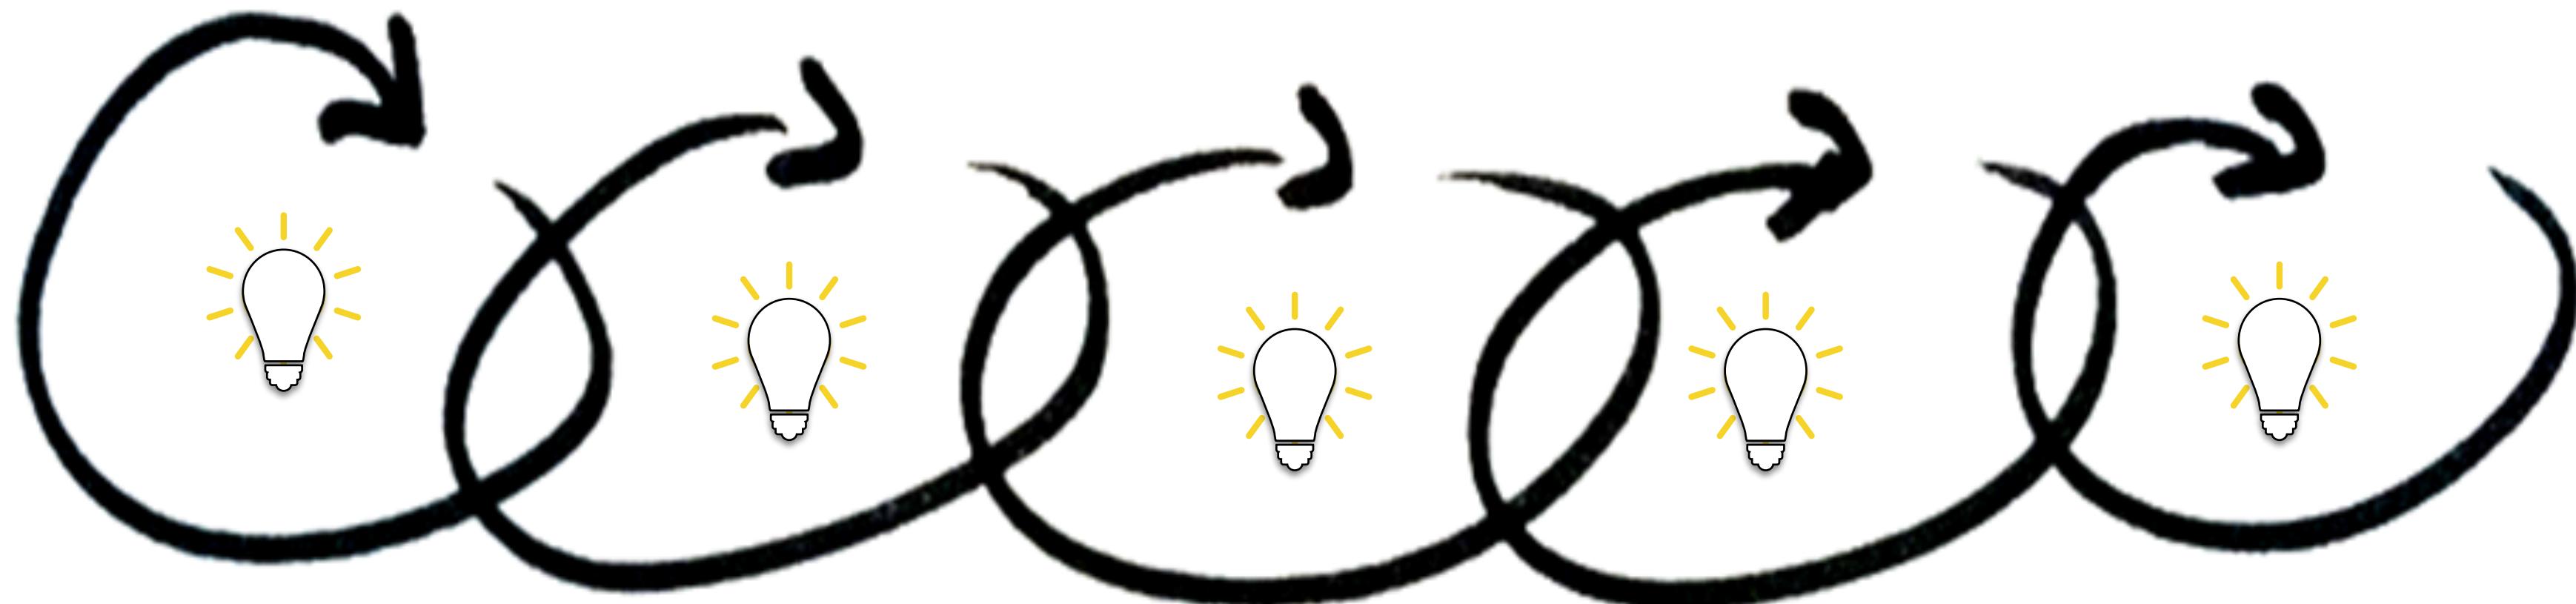

key and abbreviations

- k - knit
 - yo - yarn over
 - k2tog - knit 2 together
 - ssk - slip, slip, knit - slip 1 knitwise, slip 1 knitwise, put 2 slipped sts back on LH needle and k2tog through back loops
 - sl1-k2tog-pss0 - slip 1 knitwise together, knit 2 together, pass slipped st over
